Dear Max,  
 Hello! How are you? I'm fine.  
 Our family moved to another city a month ago, because my father and my mother wanted to live in Rostov.

I like parks, a very big cinema and two big supermarkets and new friends.

I don't like teachers in the school. They are a very strict. They are only women. I made a few friends. We ride bikes and walk in the street. I don't like the weather. It's very cold here.

Keep in touch,  
 Dima

It was a fantastic party. It was last Sunday. It was my birthday.

I got up at 7am and was very surprised and happy, because my parents had nice presents for me: the best laptop and an ant farm. You know, I'm crazy about exotic animals. My brother <sup>wrote</sup> wrote a poem for me.

I invited my friends on a party. They were very excited, because we listened to music, danced and we had much food to eat. Mom's cake was tasty.

Party was really cool! Everybody liked my party. I was happy too.

Party was very noisy.

Pajamas Party

One day my best friends <sup>and my friends</sup> Katica invited me to her party. She said that she wanted to take a break from her work. We were agreed! It was a good idea! So we went to her party together. Then we went to her door and knocked! But nobody answered... Suddenly the window opened and we saw our friend Katica! She cried in a friendly way: "Come in!" So we went into the house and looked around. Katica was very happy. She looked very well! The Katica invited us to her room. We went into her beautiful room. There were many pillows and ~~blankets~~ blankets on the floor.

40. First we did not <sup>do</sup> understand anything. But Katica explained: "I think that pajamas party will <sup>be</sup> cool!" We were very funny at that moment! Our party was very good! We scared with our <sup>our</sup> pillows and ~~but~~ made a house of blankets. I was very great. We ate pizza too! So that day was the best.

It was a fantastic day!  
Last autumn I had a birthday party...  
I got up early and my parents gave me a gift.  
I was really happy!

After ~~that~~ lunch I and my parents did a party work. My father decorated the house.  
My mom made the birthday cake.

How important is it to practise a sport regularly when you are in your teens?

Many people argue about practising sports regularly ~~in~~ <sup>in</sup> your teens is very time consuming and not efficient, however it is necessary for a healthy future for them, for children to have a healthy self-esteem and no physical problems.

Staying fit and healthy is very important in early age, because it decides rate of growth for your body and your whole future. The reason I think so is because at a certain age human body becomes severely hard to improve in any way, including muscles and body fat, meaning it's going to be hard to grow any muscles and drop some weight, which is going to lead to health problems.

An important point I haven't wrote about until now is positive effect of sports on social life of a child. Children who stay fit and healthy are more often to be respected by other children and adults, providing more healthy self-esteem, but not many people will agree because it may make children's self-esteem based too high, if they are very good at sports or too low, if they fail, but I think regular talk with children is going to help solve the problem of balancing it out.

In conclusion, I think it is very important to stay fit for children during their teens for their health, future and social life.

From the old times, sport and health for <sup>(A-10-8)</sup> people are very important. Because everyone wants to live long and happy. <sup>(10)</sup> In our times people are don't move as much as there need. Someone say that his work take a lot of time and power. But that's all we can describe like lazy. If you want, you will do it.

Sport is good, not just for our body, but ~~and~~ head too. While you do some exercises, your head like reloading. <sup>(75)</sup> More of that, in the sport club, or even at the your own training at the street? you can make some new friends. <sup>(102)</sup> And you with there will have some common ~~if~~ interests. <sup>(11)</sup>

Well, in my opinion all people <sup>at the morning</sup> should do some exercise which help them to wake up, and feel better. <sup>(133)</sup> For example, me and my family every weekends go to the sport club, with my friend Nina, by the way = I meet Nina in <sup>P. of</sup> this sport club. <sup>CR</sup> Sport help us do better our concentration, remember, better? <sup>(160)</sup> <sup>(162)</sup>

It the conclusion, I would to say that most of people accept sport like something hard, but it is wrong opinion. Sport make people smile (and healthy) <sup>(796)</sup>

Essay.

"All goods about sport"

Actually, I'm not interested at any of sports at all but it is an ~~inste~~ interesting theme to write about.

I'm sure that everyone ever heard something like "Do exercises everyday and you'll be healthier." or "Sport is life". We can hear such expressions everywhere: on TV, internet and advertisement on the street.

(But) there is nothing in it because it is true.

Daily exercises makes your body fit and it can up your self-confidence, which is another ~~st~~ advantage to do sports. Also cardio exercises fits and trains your heart so you could live longer. That means that sport is literally life.

Another good thing about sports is ability to make new friends. Football, volleyball, hockey, basketball and other such

kinds of sport that includes team-group of people you're playing and exercise with, surely can be your teammates, but also a friends in usual life.

All that I wrote earlier are only positive sides of sport and fitness. I want to remind that you can easully injure yourself while exercise so be careful and don't jump higher your head.

Essay.

Nowadays, the problem of importance of a sport for adolescents causes great argument and controversy. Some people claim that teens should exercise regularly, while others argue that is not so significant.

In my opinion, it is important to practise a sport regularly when you are a teen.

Firstly, sport helps teenagers to stay healthy. Regular exercise allows the body to grow in the <sup>right</sup> ~~correct~~ way. Also sports such as swimming, cycling, athletics and tennis ~~also~~ help adolescents to be fit and energetic.

Secondly, teens get the opportunity to find new friend or to talk to peers doing sport. Social life of teenagers become more interesting and diverse.

Thirdly, sport saves mental health. Adolescents spend extra energy doing exercise. So, it helps them to stay self-assured and purified and not to be lazy and absent-minded. Also teens forget about their problems doing sport.

However, there exists another point on this issue.

Some people believe that teens should spend all their time studying. In their opinion, sport is not so important and teenagers can do it at a later age.

Despite my respect for this opinion, I cannot share it because life of the teen should be balanced. Adolescent can devote enough time to education and sport.

In conclusion, I would like to say that sport plays a great role in our lives, so teenagers shouldn't neglect it, but should do exercises regularly.

Essay. The importance of exercise and sport in our daily life.

A-10-5

- Let's speak about sport and exercises. Nowadays people often think about their health. But also they always think about how they look like. But what about our daily life?
- If you interested in <sup>any kind</sup> sport you will look nice and feel yourself better than your friend whos doesn't worry so about his health. And of course, people will respect you. Because sport and sport exercises help us not to be fat and keep our selves healthy.
- Now we can say that sport events became an important part in our daily life. Everyday we can watch different sport programs on TV, for example: basketball competitions or football matches. As for me, I don't like that kind of entertainment but my uncle likes it and sometimes I watch <sup>football match</sup> with him.
- In my point of view sport is very important for us especially nowadays when we can find a lot of "fast food" in shops and markets. If you want to be attractive and keep yourself healthy you should do exercises every day.
- And In conclusion I would like to say that sport is important for us and for our health. And if we want to be in good shape when we will become older, we shouldn't forget about sport exercises. And of course I recommend you to start spend your free time doing different sport exercises. 2 B / C!

Why it is important to practise a sport?

From my point of view, sport is very important in nowadays. Because there are a lot of overweight people in our country. Mostly it's adult man or woman, who works at home, in office or as a driver. There is one reason - they eat a lot, but don't practise a sport at all. If they do - there would be less fat people at the streets.

Health is a fitness, everybody knows that. But "fattys" are lazy, so they don't want to do something with their "beautiful" "nice" body.

Also it has an affect on your social life. Today - nobody wants to sit in front of, or near by to blump human. They sink, expand more place, than an ordinary man, and too angry. Well, not all of them, but there is not much people who likes fat.

My opinion - practise a sport, comrades. For health and beauty! It is difficult at the beginning of this way, but after this - you will be enjoy. Then you'll have a boy/girl friend, will feel your self better, you will be happy! And in the end, my friend, doesn't it what really matters? Happiness? Always Always remember that.

How important is it to practise a sport regularly when you are in your teen? A-11-4

There is no doubts, that sport plays an essential role in life of each teen. It influences on us in various spheres, like our health, appearance, social life and others. Regular sport activity can change lifestyle, habits and the way, we are looking.

Firstly, sport can prevent from illnesses and from getting too fat. By the way, the last problem is really common among modern teenagers. That is why, it is popular to attend the gym to lose weight and, of course, it helps people to become healthier. One more obvious example is going in for yoga. It helps some people to struggle with back pain, for instance.

No less important is that sport can unite people. They can find new friends in a gym or during jogging. It is especially common for teens, because their friendship often based on interests, which they share. So, sport can become one of such interests. One more fact, that you meet interesting people, participating in competitions or tournaments. Thus, it is really helps teenagers to socialize.

As for me, I, as a teen, can say that sport is my hobby because I really enjoy doing exercises or attend P.E. classes. I care about my appearance and want to be slim, so I had to go to the gym and be active.

To sum up, regular sport activity is really a good habit. You just need to find what prefer to do, because it is important to enjoy doing sport.

Essay. How important is to practice a sport regularly when you are in your teens.

It's a well known fact that sport is one of the most popular activities in people's daily lives. It helps them in many ways - makes people pretty and more self-confident; it also helps to decrease their stress and gives pleasure. The importance of this activity comes to people in their teen age.

Without questions, sport plays an important role in teenager's lives and has a huge number of advantages. To begin with, it helps teens to keep fit what makes them more sociable and self-confident. For instance, if a person quite overweight they will become a victim of bullies in their school, but if they are handsome or beautiful, they will most likely in a centre of attention. In addition to this, sport helps a person to take care of their health.

In the other hand, sport has some negative sides. Firstly, it can mess up with a social life of teens by taking a lot of their free-time, so they will not have it to chat with others. Secondly, there will no time to do homework so a teen will have bad marks (but it will happen only if a teen is obsessed with sport).

In conclusion, I want to say that sport is the most helpful activity in people's of different ages lives in their social, health and love lives.

A-11-2 Writing. Sport in our (teens) life  
I'd like to tell you about how important it is to practise a sport regularly.

Sport and exercises play a big role in our life. Nice shape, beautiful body are the dreams of most people all over the world. These dreams may come true thanks to sport. This is a pledge of successful development of mind and body. Regular exercises strengthen central nervous system, contribute to health and making people strong and active. Moreover sport is useful for a person at any age and especially in adolescence.

Encouraging teens to practice sports is important, because sport brings many benefits. Firstly, sport will have a good effect on a teen's metabolism, heart rate and other physical condition. Secondly, sports will increase the energy level.

On the other hand there is always a risk of being injured when going in for sports. Not all sports are affordable. For example, people have to pay a lot of money for sports equipment, such as golf clubs, bikes, skis, or classes with a coach.

As for me, I like to play basketball. It is very interesting and fascinating. I love to play basketball with my team, which based in our school. It keeps me in a good form. I can not live without sport.

To conclude I would like to say that never forget that sport is an essential part of our life
